

Math Procedures

1. Student Warm-ups for first few minutes (beginning of each lesson)

Questions from homework that is due today

2. Grade work:

- read off answers
- students mark wrong with red pen and put number correct at top of page (out of 30 possible such as: 25/30)
- leave on student desk so I can walk around room and enter grades in my notebook gradebook

**If redoing work, pick up redo form

3. Notebooks

- Students will write down the objective and lesson # while doing warm-up exercise at the beginning of period
- will take notes with examples
- will do practice problems from textbook

4. Lecture Lesson

Assign HW

30 minutes to do homework

Assign all 30 problems, due the next day.

- circle answers (or highlight)

Tests

- take test
- I will grade it by end of day by just marking items wrong
- pick up test by end of day (it's up to you to pick it up after lunch)
- Correct the test (you have two days) and must be done during your lunch periods
